

IP Tutor Plus – Introduction

Welcome to IP Tutor Plus! The following resources have been designed to support lecturers and those engaging with students on intellectual property (IP). These resources provide you with the information that your students will need to know about the relevance of IP to their subject area and future careers and builds on the foundation provided in the IP Tutor online course (<http://www.ipo.gov.uk/blogs/iptutor/>).

IP Tutor Plus provides general information regarding current UK IP law and should not replace seeking professional legal advice

Why?

Although most people have an idea about what IP is and why it should be protected, the situations in which IP issues arise and the impact it can have on students' future careers is not always very well understood.

IP Tutor Plus aims to highlight what IP considerations need to be made, and at what points, in students' future careers.

What is included?

Pre-reading notes for students
Lecture slides
Lecture notes
Frequently Asked Questions
Wider talking points
Case studies

Note for lecturer:

Images of the products may be very useful to demonstrate these discussions. Copyright has a number of exceptions, one of which is for educational establishments; you can find out more at <https://www.gov.uk/guidance/exceptions-to-copyright#teaching>.

You must abide by the principles of 'fair dealing' - this allows for the copying of works in any medium as long as:

- the work is used solely to illustrate a point;*
- the use of the work is for non-commercial purposes only;*
- the use is fair dealing (this is explained in full in the guidance booklet for teaching exceptions);*
- the work must be accompanied by sufficient acknowledgement.*
